

Injection Alloys Group

Equipment

Injection Alloys supports its supply of Hi-Core and standard cored wires, with an equipment business that offers the complete range of feed equipment, guides and Injection Systems, along with turnkey options tailored specifically to customer needs.

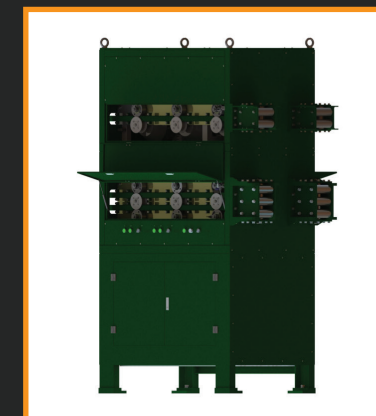

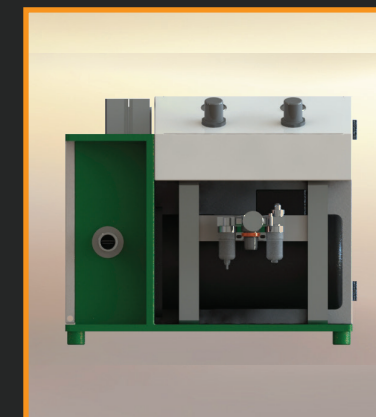

Turnkey Solutions

Injection Alloys is capable of offering bespoke turnkey solutions to a customer's needs. We are able to offer complete packages of feed equipment, guides, articulating Injection arms and complete installation, maintenance and spare parts package to support any investment program, breakdown or maintenance plan in the steel works.

Foundry Products

Injection Alloys has also developed a range of foundry feeders to cater for small diameter wire injection using lightweight portable feed machines.

Standard Equipment

Injection Alloys can supply high quality state of the art feed machines to almost any configuration that the customer requires. This equipment range is further supported by guiding and injection systems

# Of Strand	# Of Motor	Power (KW)	Speed	Wire Diameter
